Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview with Mr. Eduardo E. Drake (Reg. No. 40,594) on August 18 and August 19, 2005.

The application has been amended as follows:

A. Amendments to the Abstract:

The Abstract has been replaced with the new abstract as shown below:

On the Internet, millions of documents are electronically linked via embedded hyperlinks. The hyperlinks, which function as network addresses for specific documents, can be selected by a user to "jump" electronically from a document on one computer to a document on another computer. One problem with conventional hyperlinks is that they occasionally become out dated and ineffective, as documents are deleted, for example. Accordingly, the inventors devised software that automatically locates and marks specific portions of a document and defines hyperlinks including at least a portion of the marked text. An exemplary implementation, tailored for legal citations, processes the portion of the marked text as a search term, and allows completion of hyperlinks without

the necessity of including complete file addresses. This implementation also defines a portion of the hyperlinks based on the cost or time of executing the hyperlink, to reduce the cost or time of executing the hyperlink.

B. Amendments to claims:

Claims 1, 20, 32, 41, and 65 have been amended as follows:

- (i) In claim 1, line 1, replace “A method” with --A computer-implemented method ---
- (ii) In claim 20, line 3, replace “the generated hyperlinks” with --the inserted hyperlinks --
- (iii) In claim 32, line 4, replace “the defined hyperlink” with --the inserted hyperlink --
- (iv) In claim 41, lines 1-3, replace “the generated hyperlinks” with -- the inserted hyperlinks--
- (v) In claim 65, line 1, replace “A method” with -- A computer-implemented method --
